

Webex Calling Client Maintenance

Webex Calling and UC-One Carrier Connect – 3.9.13

WxC Carrier/SP/VAR - Friday August 14 2020

The Webex Calling App and UC-One Carrier Connect 3.9.13 for iOS and Android have been certified for use on the Webex Calling Offers. The branded clients will be ready for production release to all markets on Friday August 14 2020.

Cisco BroadCloud Platform Specific Information

Similar to the previously deployed commercial market versions, each of the clients support all Cisco market regions including from a single client using the region pulldown menu from the login screen.

UC-One Upgrade Summary:

Client Name	Current Version	New Version
WxC Calling App (iOS and Android)	3.9.8	3.9.13
UC-One Carrier Connect (iOS / Android)	3.9.11	3.9.13

Cisco BroadCloud End-User Downloads:

Non-Branding Carriers

At time of release, the CUP client download links will point to the new versions of the clients.

Branding Carriers

The release of Cisco reference clients does not affect any Customers that brand their own clients. Customers wanting to deploy their own branded versions of the clients should follow their normal branding and deployment process, and then schedule a date to upgrade their customer base.
